The problem...

- Healthcare represents 4.4% of global net emissions
- If it were a country, it would be 5th largest emitter
- EU is 3rd largest emitter, behind US and China
- Healthcare represents 4.7% of EU net emissions
It is our vision that every European country develops a national decarbonisation plan for its healthcare sector, that charts a 'Paris compatible' course to net zero emissions.
What is it?
Policy level technical analysis of European healthcare emissions

Purpose
To provide an overview of healthcare emissions in Europe including potential hotspots to prioritise at a Europe-wide level, and set out some common actions that can be taken to reduce emissions.
**Output 1.1**: Publish technical analysis paper, summarising European healthcare emissions, and outlining common actions that can be taken to reduce these.
What is it?
A framework/methodology/standard.

Purpose
To guide/support any national governments/health systems, or other relevant organisation, in developing a roadmap for the decarbonisation of its own healthcare system.
Pilot

HCWH will partner with four pathfinder national health ministries/health systems to pilot this framework, supporting participants to generate their own detailed climate footprint analysis and decarbonisation roadmaps.
Output 2.1: A framework document, detailing a common methodology for measuring the national climate footprint and developing a national-level roadmap for the decarbonisation of healthcare.

Output 2.2: Four national-level pilot study footprints and roadmaps for the decarbonisation of healthcare in four European countries.

Output 2.3: Four case studies demonstrating the implementation of the framework in pilot countries.
Timelines

- **Pilot recruitment**: 2021
- **WP1 and WP2 start**: 2021
  - **Output 1.1**: European Technical Analysis (1)
- **Output 2.1**: Framework (1)
- **Output 2.2**: National Road Maps (4)
- **Output 2.3**: Case study (4)

**WP1 and WP2**: start

**Output 1.1**: European Technical Analysis (1)

**Output 2.1**: Framework (1)
**Output 2.2**: National Road Maps (4)
**Output 2.3**: Case study (4)
