BD Life Sciences Segment

- Preanalytical Systems
- Diagnostic Systems
- Biosciences

BD Kiestra™
Laboratory Automation

BD Veritor™

BD FACSPresto™

BD Viper™ LT

BD Accuri™

BD Vacutainer® Blood Collection Tubes

BD MAX™

BD FACSAria™ Fusion

BD LSRFortessa™ X-20
Our approach to sustainability

• BD's sustainability strategy addresses the wide range of challenges in our industry, while helping to make a difference on relevant issues that affect society and the planet

• In addition to an ongoing focus on improving environmental performance, our sustainability strategy takes a broader view of BD’s role in addressing global societal issues

• The 2020 Sustainability goals are spread across four pillars

[Icons for Innovation, Access, Efficiency, Empowerment]
Our commitment

2020 Sustainability goals for product stewardship

• **Improve** life cycle impacts of products
• **Eliminate** priority materials of concern, (intentionally added), in each of the following product categories:
  - Devices: PVC and phthalates
  - Instruments: phthalates, brominated flame retardants (BFRs) and heavy metals
  - Packaging: PVC and expanded polystyrene

For more information about our sustainability programs, please visit bd.com/sustainability
Progress to meeting our commitment

- BD remains committed to our sustainability goals including elimination of materials of concern from our products and packaging

- As an example BD has been launching a cadence of new IV and catheter extension sets which are non-PVC
  - Leveraging knowledge and capabilities to expand our non-PVC portfolio, across the organization
Advancing the world of health
