

# Region Stockholm

Region Stockholm has 2.3 million inhabitants and is responsible for all publicly-financed healthcare being one of Europe's largest healthcare providers. As part of an ambitious Environmental Programme, they committed to a reduction of 45% of greenhouse gas emissions by 2021 compared with 2011.

By 2050, Region Stockholm shall reach climate-neutrality.

- Operating 6 emergency hospitals with 2,800 beds
- Issuing 40,000 healthcare visits every day
- Employing 38,000 people within healthcare
