**About Health Care Without Harm (HCWH) Europe**

HCWH Europe is a non-profit organisation that works to transform healthcare worldwide so that it reduces its environmental footprint, becomes a community anchor for sustainability and a leader in the global movement for environmental health and justice.

HCWH has offices in Europe, US, and Asia as well as a global team that works across all regions. HCWH works closely with health professionals, hospitals, healthcare systems, NGOs, local government, ministries of health and international organisations. HCWH Europe is active in 26 countries of the WHO Euro region and has a growing number of members. The HCWH Europe office is located in Brussels, Belgium.

Position overview

Reporting to the Director of Programmes, the purpose of the role is to manage HCWH Europe’s ground-breaking Born Green Generation project, ensuring project activities are delivered on time, on budget and produce the desired results. The project aims to reduce plastic usage and gradually phase out of toxic chemicals in maternity, neonatal and paediatric wards. We will establish these ambitious goals in collaboration with four European healthcare providers and work towards normalising sustainable healthcare practices through educational activities involving two universities. Additionally, we will lead a communication campaign with the support of a media partner.

The post holder will have overall responsibility for effective and efficient management and delivery of the project through annual planning, budgeting, monitoring and reporting, managing key project staff and external partners, and day-to-day project operations consistent with project cycle management and the project’s goals and to the highest standards of programmatic quality.

Key responsibilities:

- Lead, manage and coordinate day-to-day planning, implementation and management of project activities according to the project plan and project log frame
- Develop and implement project plans with project staff and partners to ensure effective project implementation
- Line manager the Green Perinatal Care Officer and Circular Healthcare Project Assistant
- Act as the day-to-day point of contact for all project activities and enquiries
- Ensure that project deliverables and pilot projects are designed, planned, and executed to the highest standards
- Ensure monitoring system and tools developed are used by project staff to track project progress, and capture learning
- Maintain a project risk register and ensure project compliance with all legal and donor requirements
- Provide regular reporting to the Circular Healthcare Programme Manager and Director of Programmes including preparation and consolidation of project monthly, quarterly and annual reports
- Carry out adjustments to project plans and management on an on-going basis in response to changing context, resources and opportunities
- Monitor project expenditure against budget, and prepare and submit required project progress and financial reports on a regular basis
- Develop and maintain information management systems to facilitate effective communication, reporting and project management
- Develop and maintain strong relationships with project partners
- Coordinate with the Development Team to ensure that donor guidelines are adhered to
- Coordinate processes for project evaluation, document and share lessons learned with partners and other stakeholders
- Manage and supervise the work of the project team
• Ensure team and individual work plans are prepared and followed

**Required qualifications and experience:**

• Educated to postgraduate level or equivalent experience in a relevant field such as global/public health, healthcare management, environmental sciences, or sustainable development
• Minimum 5 years’ experience managing complex, multi-stakeholder projects
• Experience of managing teams of project officers and coordinating diverse project partners
• Demonstrable experience in budgeting/financial procedures, and writing management and financial reports to donors
• Experience of managing projects funded by philanthropic foundations would be an advantage
• Experience of the environmental and/or health sectors would also be an advantage

**How to apply**

All candidates must demonstrate that they hold the existing right to work in Belgium or the EU.

To apply for this position please send an email to jobseurope@hcwh.org

• Include your last name and the job title in the subject line, i.e. LAST NAME Born Green Generation PM
• Attach your CV and a cover letter (Word or pdf format) explaining your motivation for the position
• Please let us know where you found the position advertised and when you would be able to start

Please note that only candidates selected for an interview will be contacted.
